# DUNGEON STRUCTURE

## LEGENDARY ITEMS

Legendary items are scattered (2) and wide throughout the game. They are considerably stronger than normal items and are extremely precious. At the Blacksmith (which can only be accessed once the story has advanced) you can combine, strengthen and improve legendary items using skills from other items. You can also repair normal items that have been damaged in battle at the Blacksmith.

### Combine (add a skill)

The Blacksmith brothers can combine skills having nothing to do with your legendary item. They can also delete a combined skill. Naturally, they will charge you for these services.

### Strengthen (improve parameters)

The brothers can also strengthen legendary items by increasing the damage value. There is a fee for the service.

### Improve (lower mastering difficulty)

The brothers can also make your legendary items easy to master by lowering the mastery level. Again, there is a fee for the service.

## SAVING AND LOADING MINI-GAMES & MONSTERS

In Time Stages, you can download mini-games (bought + stored) and monsters (captured in dungeons) to a VMU (and vice-versa) to play games.

### Downloading Games

Follow the steps below:

1. Purchase a mini-game item in a store (The Souvenir Store and the Convenience Store both sell mini-games).
2. Insert a VMU (and optionally) into your Gamecube Controller (You must have 64-128 blocks of available space in your VMU).
3. Download the game. Press the  Button when your Character is standing in front of the VMU Device (in the Monster House). Select "Download game" from the menu to download the game to your VMU.

You can only store one mini-game in your VMU. You can only download a mini-game once: because it will disappear after being downloaded. To download it again, you will have to buy a new mini-game from a store and download it again.

### Deleting games

You can delete Time Stages mini-games from your VMU at the VMU Device in the Monster House. You can not delete non-Time Stages mini-games.

## Tokens

Use the mini-games to earn tokens (currency). You can withdraw tokens from and transfer them to mini-games and exchange them for items. You can also purchase things with tokens, and convert tokens into money.

To leave some tokens in a mini-game, select "TV" into "VM" then return the desired amount of tokens to the mini-game. If you don't do this, or if you have already converted your tokens into gold, you will have to buy tokens at a bad exchange rate.

# EMOTION INDICATORS

There are countless monsters roaming around the dungeons. They may be monsters, but monsters have feelings. You now know! If you can transfer how to read these Emotion Indicators, you will be on your way to ruling Time Stakers.

## Conversation Mark

This means that this monster is chatting to his allies. They are discussing forming parties or saving taken allies.

## Heart Mark

This means that this monster is very curious and wants to approach the main character. Such monsters won't initiate battles.

## Star Mark

This sign means that this monster is suffering the effects of an curse.

## Sleep Mark

This means that the monster is sleeping. The monster isn't thinking about anything and won't initiate a battle. It is a very easy to weak point, such as a monster.

## Music Mark

This means that the monster is in a good mood and has a low level of aggression. Even if your character enters the monster's sector, it won't initiate a battle.

## Anger Mark

This means that the monster is angry and has a high level of aggression. If your character enters the monster's sector, the chances are very high that it will initiate a battle.

## Sweat Mark

This means that the monster is flustered. A monster will sweat when the main character is running too fast and leaving it behind.

## "Well, let me see..." Mark

This means that a character has just slipped on a trap.

## Surprise Mark

This figure is shown when the main character is discovered or when the character is surprised.

# ADVENTURE HINTS

## The initial flow of the game

As told pursuit of an armored knight who had suddenly attacked him, Sword finds himself lost in a strange clock tower upon opening a book lying closed in a room. Sword is blinded by a fierce ray of light that the book emits. He is awakened out. Some time later, Sword regains consciousness to see that the book is gone. However, still, he leaves the room and walks into a corridor to find that the doorway that he previously climbed has van-ished. What sort of a place has he stumbled into?

## Clock Tower Dungeon

This is a practice dungeon. The dungeon contains many helpful signboards with essential game play information written on them. On the top floor of the dungeon, Sword finds the knight whom he chased during the opening sequence of the game. Sword must defeat this knight. If Sword fails, he will reset from the room where he opened the book.

## Sword receives the Hero's Crest (Sword's House)

After clearing the practice dungeon, Sword meets the mystical old man for the first time. Sword is told that he is a hero who will protect the world. In a lavish display of generosity, the old man has even prepared a house and a budget for Sword. From now on, Sword will keep his indispensable things here (such as the Hero's Crest). Without the Hero's Crest, neither Sword, nor any of the other main characters, can enter a dungeon.

## A new Place arrives - Enter the Red Mountain Cave

Sword wakes up a piece piece from the sky and begins to wander. The mysterious old man won't altogether taking him away. Red Mountain Cave. Sword sets off towards the first dungeon, the Red Mountain Cave. But before entering the dungeon, Sword had better buy some equipment and items from the store. Best of all that Sword can only carry up to 4 items into a dungeon.

## Time Stalkers Q&A

### Q1. I can't register magic spells and skills.

There are limits on the number of magic spells and skills that you can register. Your characters will learn more skills and magic spells as their lines indicate. The result being that not all of the skills and magic spells can be registered. If this happens, you should select which skills and spells you want to use in the dungeon before you enter.

### Q2. I can't use equipped equipment, or registered magic or skills.

If your characters' parameters don't meet the specifications to "master" an equipment item, magic or skill, you will not be able to use these things to their full potential - even if you have equipped/registered them. For more details, read LEVELS AND MASTERY (-P28 of the Time Stalkers Manual).

### Q3. I can't "move" during battles.

To move, you must first acquire then equip your character with some boots. Before fighting, equip your character of the Item Command Menu (-P22 of the Time Stalkers Manual). Also, if your characters basic parameters do not meet the specifications to "master" the boots (-P28 of the Time Stalkers Manual), you will not be able to use them.

### Q4. I can't enter the dungeon because I have too many items.

Sword can only carry 4 items into a dungeon (Rico and Nigel can carry more), level up in a dungeon, and the number of items that your character can carry will increase.

### Q5. After leaving a dungeon, the number to the right of an item (+?) has disappeared.

An item which has a number such as "+6" attached to it has the advantage that it will allocate bonus points to the parameters. This indicator and its consequent increased parameter values will disappear when your character leaves the dungeon.

### Q6. My monsters vanished when I came back to the town.

If you are defeated in a dungeon, any unregistered monsters in your party will vanish. Registered monsters will be returned to their captives.

### Q7. How can I get mini-games?

You can buy minigames at the Souvenir Store, or the Convenience Store. Take one to the Monster House in Fountain Square and you can download it to your VMU. The game will vanish once you have downloaded it. To download it again, you will have to buy a new copy of the minigame from a store.
